## Pope John

## Meets Aides,

## Plans Travel

VATICAN CITY — (UPI) — Vatican sources said today that Pope John XXIII plans to explore every corner of the Vatican and later may travel abroad.

The sources said the Pope, who never has lived in the Vatican, also wants to meet every one of the 1000 persons in the Holy City and eventually to get to know all about them.

He told a former aide that he hoped to travel to France next February to attend the closing of the Lourdes Centenary. He said he would like to stop off in Venice en route to revisit his former parishioners.

The visit of a reigning pope to any place an appreciable distance from the Vatican would be an epoch-making event. A papal visit to France would have added significance in the annals of the church.

WASHINGTON — (UPI) — President Eisenhower has designated Labor Secretary James P. Mitchell; Robert Murray, deputy undersecretary of state, and Mrs. Claire Boothe Luce, former U. S. ambassador to Italy, to represent the U. S. at Tuesday's coronation of Pope John XXIII.

## Chiang Keeps

## Right to Aid

## Chinese Revolt

WASHINGTON—(UPI)—The State Department said today Nationalist China is entitled to use military force against the Chinese Communists to assist any "large scale uprising on the mainland."

Spokesman Lincoln White said such use of force by Chiang Kat-shek was not barred by the recent Nationalist declaration renouncing military might as the "principle means" of regaining the Red-held mainland.

It was the first public acknowledgment by the U. S. that Chiang had reserved the right to use force for any other purpose than self-defense.

Secretary of State John Foster Dulles on Tuesday declined to spell out just what strings were attached to Chiang's Oct. 23 renunciation of force.

Earlier today Nationalist Premier Chen Cheng said on Formosa that the Nationalists might attack the mainland if the Reds resumed their assault on Quemoy and other offshore islands.

**Reads Say West  
Arms Israel  
for 'Adventure'**

MOSCOW—(UPI)—The Soviet Union accused the West today of building up Israel's military strength for a "new adventure" in the Middle East.

The official Communist Party newspaper Pravda reported the evacuation of U. S. and British troops from Lebanon and Jordan, but cited Arab press warnings that "the forced withdrawal of the aggressors in no way means they have given up their predatory plans in the Near East."

"We cannot fail to notice that the Western powers have been feverishly arming Israel during the past months," Pravda said. "Israel has recently signed agreements for the supply of arms with Britain, France, Belgium, Italy and the United States."

"This confirms the reports that the British and U. S. imperialists are once again counting on Israel preparing a new adventure," it said.

Mr. D:

AT ELECTION TIMES: "RUSSIA WILL  
ATTACK PARIS FROM THE HI-SKY  
ABOVE (DUCELY) AS NOSTRA DAVIUS SAID  
400 YRS AGO," and thus set off World  
War III. Last week Billy Graham of  
1300 Hammon Pl. Minn., called my atten-  
tion to the words of Jesus Matthew 24:22:  
"AND EXCEPT THOSE DAYS BE SHORT-  
ENED... NO FLESH WILL BE SAVED."

Plus some hand writing: I have a touch  
of ARTHRITIS - and not at the office  
to TYPE THIS.

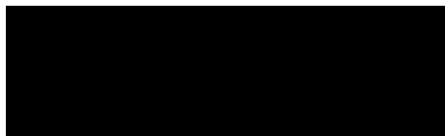

Mr. Ewell,
